OBJECTIVE

To work in a stimulating and conducive environment that provides an opportunity to work on challenging assignments and to make a difference in the output of the organization with my performance and hard work. I am a life long learner and am determined to become acknowledge Professional for keeping abreast with changing technology.

PROFILE

I am hard working and am constantly seeking to expand my abilities. I can work effectively both on my own and as part of a team. I can think logically and can adapt my ideas to the situation at hand. I started learning computer from 1993, then with the passage of time learn more and more about computers. I can program in many languages, including C++ and PHP. I have produced many web sites, both on my own and as part of a team including a complex web based strategy game using PHP, JavaScript, HTML and CSS. Configuring, troubleshooting and maintenance of website, Site designs using Photoshop, Livemotion, Golive and others Web Site Management - Telnet and ftp clients, Golive and Dreamweaver management tools. I am a freelance programmer and web developer / web site designer. Currently much of my freelance work involves designing and implementing complex web solutions involving database integration. I have a Masters Degree in Computer Science.

I am also well experienced in designing, advising, managing and supervising local area network and campus wide networks (in the university). Currently we are working on campus wide inter networking via wireless. I am also responsible for planning and smooth implementation of LAN computing environment in my department of Software Research and Development at the university of Azad Jammu & Kashmir. I have configured various Windows NT, XP servers and clients with applications.

Good general computer skills such as hardware maintenance, and setting up and wiring small networks. I can provide network support, backup critical data, or provide virus recovery services. Excellent at adapting to the use of new and unfamiliar software.

ACADEMICS

- **MS-IT (Information Technology)** (2001–2003) from PIMSAT Institute of Information Technology H-8, Islamabad
